Did you know that Catholic Schools were ranked #1 in the percentage of graduates who actively participated in civic and community activities? Catholic School students learn starting in kindergarten that community is at the heart of who we are. It fosters not only a sense of community but also an abiding understanding of the importance of service to others. Our goal through Catholic education is to be able to create love and respect that goes beyond, focusing on actively living one's faith and providing an example of character to others in daily life, Catholic Schools assist our youth in realizing their own personal gifts and in turn help to install a love of learning that increases their confidence.

Catholic education has always been at the heart of our Catholic mission, believing that our youth are the 'greatest work of the Church.' It enables youth to actualize their full, individual potential both spiritually and academically, offering the realization of the value of moral character that is a life-long journey of learning.

If you read/watch the news or follow social media, you will see that there is a need to invest and teach our youth what is truly important, to encourage them to live spiritually, and to help them fulfill their potential. Catholic education provides just this.

This is the main reason why **Holy Child Knights of Columbus** will be holding a '**300 Club Raffle**' for the benefit of Catholic School Scholarships. We truly believe that this fundraiser will serve as the catalyst for the advancement and development of not only our Catholic schools but also our families.
